Dear Volodymyr Zelenskyy and all Ukrainians around the world,
I just want to thank you.

Thank you for the extraordinary work you are doing. You are doing an outstanding job in the most difficult of times.

I am personally ashamed that you have to manage the Russian war with so many killings for three years already. And on top of that, the US government is now trying to exploit the raw materials instead of supporting you.

But please, dear Ukrainian citizens and dear Volodymyr Zelenskyy, carry on! You are the guardians of peace for all Europeans.

That is why I am writing this public letter to tell you that an ordinary European citizen cares and wants to encourage you to carry on. I really wish for a long lasting peace and all the possible best for each of your personal life's.

No person in this world should need to endure war.
