As parents, we understand the challenges the district and school face in times of budget cuts. It has come to our attention that several teachers received layoff notices during class yesterday. While we acknowledge the challenges involved in making these decisions, it is disappointing that such a crucial decision-one that directly affects students-was made without seeking input from students or parents, which is deeply concerning to us. It is particularly distressing to learn that Ms. Villareal, a teacher who is greatly admired and appreciated by both students and parents, is also on the layoff list.

Ms. Villareal is a passionate educator who works tirelessly to build positive relationships with each child. She genuinely cares about her students, helping them navigate academic and personal challenges. Her science classes have ignited students' love for learning and scientific exploration, while her drama classes have also achieved remarkable success-her students have earned multiple awards in competitions under her guidance. Losing such a dedicated and exceptional teacher is a significant loss for the students, the school, and the district.

When Ms. Villareal informed her students yesterday that she would no longer be able to continue teaching at this school, many students were heartbroken and brought to tears. Some students have even expressed reluctance to attend school, as they are experiencing feelings of disillusionment and injustice at such a young age.

We understand that this decision is not easy for the district or the school. However, we sincerely hope that by expressing our concerns, the district will reconsider the layoff decision regarding Ms. Villareal. In matters as crucial as these where student well-being and relationships are profoundly affected-we believe it is essential to consider the voices of parents and students. We also hope that dedicated and hardworking teachers will receive the recognition and fairness they deserve, sending a clear message to others that their efforts are valued and rewarded.

As an engaged part of the district community, we seek to support through educational funding, participation in board member elections, and ensuring our voices are heard. Starting today, we will be collecting signatures from students and parents in support of reversing the layoff decision for Ms. Villareal. We respectfully urge the district and school to carefully consider our request and the profound impact this decision has on the community.

Thank you for your time and attention to this important matter.
